

Latin and Greek Suffixes: -Ice and -Escent

Many suffixes we use in English originally come from Greek or Latin word endings. The suffix *-ice* is from Latin meaning “state” or “quality.” The suffix *-escent* is from Latin meaning “becoming” or “in process of being.” Suffixes often change the way the root word is used, such as from an adjective to a noun. For example, the root *mal* means “bad.” Combine *mal* with *-ice*, and it becomes the noun *malice*. Based on its original meaning, *malice* means “bad state” or an ill will or a desire to do harm.

Use the list in the bank to make five different English words out of *-ice* and *-escent*. You may add a prefix or change the spelling a little if needed. Write a sentence for each word you make and circle the word you made with the suffix. Be sure to use words for both *-ice* and *-escent*.
