

## Latin and Greek Suffixes: -Cide and -Ior

Many suffixes we use in English originally come from Greek or Latin word endings. The suffix *-cide* is from Latin meaning “killer.” The suffix *-ior* is from Latin meaning “more.”

Suffixes often change the meaning of the root word. For example, the root *exter* means “outer.” Combine *exter* with *-ior*, and it becomes the word *exterior*. Based on its original meaning, *exterior* means “more outer” or the outside of something.

Use the list in the bank to make five different English words out of *-cide* and *-ior*. You may add a prefix or change the spelling a little if needed. Write a sentence for each word you make and circle the word you made with the suffix. Be sure to use words for both *-cide* and *-ior*.
