

Latin and Greek Prefixes: Dia- and Omni-

Many prefixes we use in English originally come from Greek or Latin words. The prefix *dia-* is from a Greek word meaning “through” or “across.” The prefix *omni-* is from a Latin word meaning “all.” If you understand what the prefix means, it will help you understand the meaning of the whole word. For example, the ending *phragm* means “a fence.” Combine *dia-* with *phragm*, and it becomes the word *diaphragm*. Based on its original meaning, *diaphragm* means “through a fence” or a part of the body through which we breathe.

Use the list in the bank to make five different English words out of *dia-* and *omni-*. You may add a suffix or change the spelling a little if needed. Write a sentence for each word you make and circle the word you made with the prefix. Be sure to use words for both *dia-* and *omni-*.
