

Latin and Greek Root Words: Struct and Ject

Latin and Greek are the source of many root words in English. *Struct* comes from the Latin word meaning “build.” *Ject* is from a Latin word meaning “throw.” When combined with a prefix, suffix, or another root word, these root words become common English words. For example, -ure is a suffix meaning “act” or “process.” Combine *struct* with -ure, and you have the word *structure*. Based on its original meaning, *structure* means “build act” or the act of building.

Use the list of prefixes and root words in the word bank to make five different English words out of *struct* and *ject*. You may add an additional prefix or a suffix, or change the spelling a little if needed. Write a sentence for each word you make and circle the word you made from the root word. Be sure and find words for both *struct* and *ject*.
